

Quality Policies of the Internal Quality Assurance System of Higher Education at the Technical University of Košice

1. Policy for sustainability of quality assurance system at TUKE

- TUKE, as a part of the European Higher Education Area, supports quality policies that are in line with the Standards of the Slovak Accreditation Agency for Higher Education.
- Internal stakeholders develop and implement these policies through appropriate structures and processes with the involvement of external stakeholders.
- Policies and processes are the main pillars of a coherent IQAS, which forms a cycle of continuous improvement, and contribute to the responsibility of TUKE and develop a culture of quality at all its levels.
- Independence and objectivity in monitoring, reviewing and approving study programmes are a priority for TUKE.

2. Policy on the quality of education at TUKE

- TUKE supports study programmes that are in line with current international trends, but also allows for the design of unique programmes that anticipate future practice requirements.
- Students and other stakeholders are involved in the proposal and development of new study programmes.
- To increase the competitiveness and efficiency of education, TUKE promotes internationalisation and interdisciplinary and online study programmes for all students.

3. Policy of research and education interconnection at TUKE

- Scientific rigour is of primary importance to TUKE for high-quality scientific work, which lies in strict adherence to the highest professional and moral standards, transparency of research, integrity of practice and education.
- TUKE strengthens the link between education and creative activities of teachers so that research results are competitive within the international research area and teachers are able to transfer the latest knowledge into education.
- The creative activity outputs of those providing profile courses are of significant international level of creative activity.

4. Policy on transparency and information management at TUKE

- TUKE publishes information related to education, research and IQAS activities in a timely and transparent manner to meet the substantial needs of all stakeholders.
- TUKE ensures transparent management of financial resources and ensures efficient use and disposal of assets
