

Dear students,

The [European Universities Community](#) is launching the second edition of the European Student Assembly [#ESA23].

The European Student Assembly is a grassroots project that gathers each year more than 200 students from different [European University Alliances](#) (EUA) to debate current issues, draft political recommendations for the future of Europe and advocate them among stakeholders and decision makers. It is monitored by an international team of students and staff from higher education institutions involved in the European Universities Initiative. TUKE is a proud member of alliance [Ulyseus European University](#) a at the [first assembly was represented by two of its students](#).

From March to May 2023, the selected students will work remotely to deepen their understanding of a chosen topic and prepare recommendations before meeting with their peers for a **3 days intercultural event in Strasbourg from 31 May to 2 June** to discuss and finalise their recommendations.

As TUKE students and part of Ulyseus you are eligible to apply! Please note that accommodation costs will be taken care of by ESA, and that selected students will have their travel costs from European countries covered by Ulyseus.

Applications are open! Please check ulyseus.eu and read the [#ESA23 handbook](#) before applying

The deadline to submit your application is 4th December (before 23:59 CET): <https://www.euc-initiative.com/european-student-assembly/esa23-how-to-apply/>

O aliancii Ulysseus

Ulysseus is one of the 41 European Universities selected by the European Commission to become the universities of the future. Led by the [University of Seville](#) together with five other universities in Europe ([the University of Genoa, Italy](#); [Université Côte d'Azur, France](#); [the Technical University of Košice, Slovakia](#); [MCI | The Entrepreneurial School®, Austria](#); and [Haaga-Helia University of Applied Sciences, Finland](#)), the project will allow students, researchers and graduates to move freely between universities, carry out internships in companies and start high-impact research projects.
